About Me

Second-year Information Technology student at MIT Muzaffarpur (2027) with interests in Artificial Intelligence, Full-Stack Development, and EdTech solutions. Experienced in building scalable web and mobile applications using modern frameworks and AI APIs.

Education

- **Muzaffarpur Institute of Technology (MIT)**, Muzaffarpur
B.Tech in Information Technology 2023 – 2027
CGPA: 7.34

Experience

- **Full Stack Developer** CareerSimplify [🔗](#)
 - Developed complete startup website using MERN stack from scratch.
 - Designed REST APIs, database schema, and authentication system.
 - Built responsive UI and deployed production-ready application.
 - Worked directly with founders to implement business features.

Projects

- **Axion AI Mobile Assistant** [🔗](#)
 - Built AI assistant with multi-persona agents, web search, and image generation.
 - Integrated Gemini API and deployed on Google Play Store.
- **Coursify AI Course Generator** [🔗](#)
 - Developed backend using Node.js with mcp, LangChain, and LangGraph workflows.
 - Automated generation of structured educational content using Agentic AI.
- **PYQDeck EdTech Platform** [🔗](#)
 - Engineered a full MERN stack platform independently, implementing database design, REST APIs, and Clerk authentication.
 - Integrated Gemini API for real-time, AI-powered doubt solving and deployed the production-ready application.

Achievements

- **Finalist**, Smart India Hackathon (SIH) 2025 Ministry of Railways
 - Collaborated in a 6-member team to build a web platform and Android app within a strict 5-day timeframe.
 - Driven full-stack development and system integration to solve a real-world railway problem.
- **3rd Position (Team DOSTIFY)**, CLIMB MIT Muzaffarpur Alumni Association International
 - Secured a ₹40,000 project grant by developing an impactful and innovative technical solution.
 - Navigated complex technical challenges through disciplined problem-solving, structured thinking, and rapid iteration.

Technical Skills

- **Languages:** JavaScript, TypeScript, Python, C, C++, HTML, CSS
- **Frameworks:** React, Next.js, React Native, Node.js, Express, MongoDB, Expo, Tailwind CSS
- **AI & Tools:** LangChain, LangGraph, Gemini API, mcp, Git, GitHub, VS Code, Vercel

Extracurricular Activities

- Coordinator, MIT IT Working Club Nov 2024 – Present
- Member, Moxie Technical Club Jan 2024 – Present

Certifications

- PCAP Programming Essentials in Python (Cisco) [🔗](#)
